THE UNICO SYSTEM

Description: The Unico System is technologically advanced and highly engineered. Having an understanding of the system and the basic rules of installation are essential to ensuring that every system installed delivers the highest level of comfort and customer satisfaction. This course allows the participant to have an understanding of the advantages of the Unico System vs. traditional HVAC options.

Unico's Basic Product Training is designed to provide an overview of the many applications and engineering principals of the Unico System. These sessions present a general picture of the topic...leaving the participant with a basic understanding of Unico and each of the Unico System elements.

When:	<u>April 6, 2010</u>	<u>April 7, 2010</u>	<u>April 8, 2010</u>
